Exhibit A.

ARTICLE IV DISPLAY OF ADDRESS NUMBERS

Section 1. Required Address Display Format

D. Structures Located Distant From the Street on Which They Front:

Where a house, building or structure located on improved property is located more than 100 feet from the street on which such property fronts, or the topography or vegetation of such property prevents the address numbers from being seen from the street, the assigned address numbers shall: not be less than *three (3) four (4)* inches in height; comply with the color requirements in section F below; be posted on a sign, post, fence, or gate that is located no more than ten (10) feet from the intersection of the street and the driveway. The placement of the assigned street number on the street curb is permissible, but may not be used to meet the requirements of this Article. In the event that two structures share a driveway and the structures are not visible from the road on which the address is assigned, the addresses shall also be posted where the driveway splits clearly indicating the location of each structure.
